Earth Corporation announces that the Earth Corporation Group's greenhouse gas (GHG) emission reduction targets have been validated by the Science Based Targets initiative (SBTi) on October 30, 2026.

The SBTi is a global body enabling businesses to set ambitious emissions reduction targets in line with the latest climate science. It is focused on accelerating companies across the world to halve emissions before 2030 and achieve net-zero emissions before 2050. The initiative is a collaboration between CDP, the United Nations Global Compact (UNGC), World Resources Institute (WRI) and the World Wide Fund for Nature (WWF).

SCIENCE BASED TARGETS

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

In order to achieve carbon neutrality by 2050, the Earth Corporation Group has set the following GHG emission reduction targets as intermediate milestones and is advancing a variety of initiatives.

Our Group's SBT-Validated 2035 GHG Emissions Reduction Targets

- Scope 1 + 2 : 63.0% absolute reduction by 2035 compared to base year 2020
- Scope 3 : 30.0% absolute reduction by 2035 compared to base year 2025

- END -
